| < 130%     | Insufficient capital adequacy         |  |

## Attractive and Sustainable Dividend Policy

The minimum dividend pay-out is set to 50% of consolidated net profit for the previous year, however Zavarovalnica Triglav will strive not to reduce its dividend payment below the level of the previous year. As thus far, the future implementation of the dividend policy will be subordinated to achieving the medium-term sustainable target capital adequacy of Triglav Group. The proposal of the Management Board and the Supervisory Board as regards the annual distribution of accumulated profit of the Company will therefore take into account the following three objectives in a balanced manner: to ensure prudent capital management of Triglav Group and its financial stability, to reinvest net profit in the implementation of the strategy of growth and development of Triglav Group and to pay out attractive dividends to the shareholders.

<sup>&</sup>lt;sup>2</sup> Based on methodology before its revision in 2017

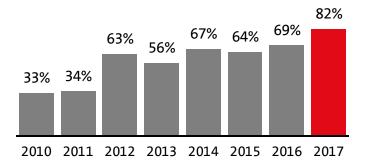

¹ Standard formula used. In 2017 methodology was revised introducing more conservative approach for calculation of the adjustment for the loss absorbing capacity of deferred taxes.

<sup>\*</sup>Life investment result net of guarantees and additionally formed mathematical reserves

Results comparable with 2017

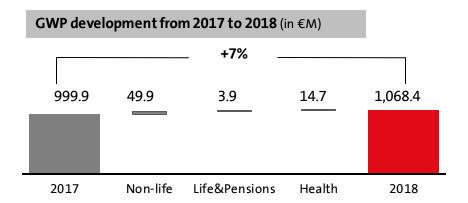

Decrease in investment result\* mainly result of lower returns on assets of guarantee fund (€ 5.1M) and additional provisions made due to the reduction in reserving interest rate

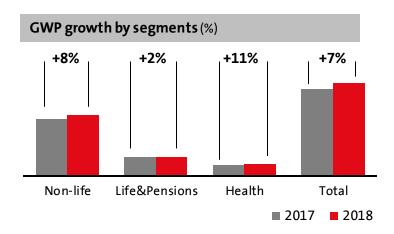

Improved insurance result (+22% y-o-y) mainly due to higher net premium earned and more favourable net claims experience. PBT from investments unchanged due to higher net realised capital gains
